

What we are doing

Water

- We change towels on request and bed linen every 2 days
- We dry the sheets outdoor.
- Dishwashers and laundry machines always work with full charge.
- We installed a counter with flow adequate to the needs of the Hotel.
- We promote our customers to the rational use of water.

Electricity

- We implemented a system of cut of energy per floor (control of consumptions).
- The Hotel is equipped with Led lamps (low consumption).
- The exterior signage has LED lighting.
- We perform regular maintenance of equipment.
- Hotel PC monitors are set to turn off automatically.
- The hotel safe does not use batteries, it has removable locks.
- The hotel has solar panels for preheating of sanitary waters.
- The laundry machines have hot and cold water inlets which shortens the wash time.
- Detergents are biodegradable and are properly packaged to prevent spillage.

Recycling

- We return electronic equipment, ink cartridges, batteries, lamps, batteries, medicines to accredited suppliers.
- We separate the residues in ecoponto inside the Hotel and we deposit them in the ecoponto of the street.
- We reuse paper.
- We reuse textile.
- Whenever possible, we send electronic invoices.
- We do not print e-mails.
- We collect corks and stoppers from deliveries for reuse and recycling projects.
